

First Last Name

Class Period

Lesson 7

Type Questions & **Type answers in Bold.**

Try it on your own first & then the answer key is on the 2nd page.

Keyboarding Wiz-Quiz

1. Which finger does not rest on a letter?
2. What is the most number of letters typed by any one finger,
And which finger or fingers is it?
3. Which finger types only one letter?
4. What is the greatest number of punctuation keys typed by one finger, and which one is it?
5. Which finger or fingers type two consecutive letters (e.g., y-z), and what are the letters?
6. Which finger or fingers type three consecutive letters (e.g., x-y-z), and what are the letters?
7. Do the numbers on the standard keyboard start with: □ '1' and end with '0'
or start with? □ '0' and end with '9'
8. Reading from left to right, there are two instances of three consecutive letters (e.g., x-y-z). What are the two sequences?
9. Going from one adjective letter to another, in any direction, but without repeating any letters, how many words of three or more letters (no proper nouns) can you find? Some portion of each key must be next to the following one (e.g., "fed" won't work because the 'f' and 'e' are not adjacent).
